Roots and Gold Dust Newsletter – April 2009

## April 2009 Newsletter

**The first newsletters of this era were printed after the meeting of that month, so they would come out late in the month. This caused confusion for many of the members since most magazines and newsletters come out either just before or on the first of the month, not the end of the month. To correct this confusion, the dating system was changed so that when the newsletter came out, it would be dated for the following month. To accomplish this, what would have been the April 2009 Newsletter, was redated to May 2009 and the new dating carried forward from there.**
