

Publications by Peter J Huggins of Waltham Abbey Historical Society

List 1: Articles published in Academic Journals

The title hyperlinks lead to abstracts at the *British & Irish Archaeological Database* ([BIAB](#)). The “Download” hyperlinks lead to a copy of the full article, mostly as Adobe PDF files hosted by the *Archaeology Data Service* ([ADS](#)).

This list is by no means exhaustive - Peter also had letters, brief dig updates, and other contributions published in these journals, which are not listed here. For example, notes on the archaeological excavations made during the installation of a new stairwell cutting into the floor of the south aisle of Waltham Abbey parish church in 1984, will be found in *Essex Archaeology & History* 16 and *Popular Archaeology* 6; and investigations into the Abbey Mead at Waltham Abbey can be found in *Essex Archaeology & History* 10 and 11, and *Medieval Archaeology* 23.
