# As the Title to Your Property Guaranteed?

Buyers of real estate and lenders of money on real estate security should for their protection insist upon a Title Guarantee Policy! The payment of only one premium is required in connection with title, guarantee policies and the title is guaranteed as of the date specified in the policy. A title policy protects the owner or mortgagee against hidden risks, not revealed by the public records.

- A few of the most serious of hidden risks are:
1. Marital Status of the title holder, including all title holders in the chain of title.
  2. Undisclosed heirs (ask any attorney in Crawford County about the Dr. David Wilson 3,000-acre farm adjoining Robinson on the west, when 12 years after his death, the owners had to settle with an heir who showed up one day in Robinson, after being declared dead by our courts) and the thousands of dollars he collected from the owners at that time. BETTER INSIST ON A TITLE POLICY, TODAY! See us for rates.

***A Title  
Guarantee  
Policy  
protects the  
future  
against the  
past!***

Even the most thorough examination of a title may not reveal past irregularities in transfer of the real estate involved. Deeds that were forged long ago, the existence of forgotten legal heirs, secret marriages or errors in old records may remain hidden for years, and then suddenly come to light to cause unexpected, costly future threats to ownership. But no such trouble need trouble the owner of Crawford County real estate, if they are protected by a Title Guarantee Policy, which is available through our office. The Title Insurance Company, who we represent, shoulders all expense and assumes full responsibility for defending the titles as guaranteed, and in case of loss, promptly pays. Ask us about this Title Policy!
