

Dear Members of The Belgian Researchers:

We take great pleasure in welcoming and introducing our new members, they are:

75 Pearl Hruska, R. 1, Luxemburg, Wisconsin 54217
 76 Jamesalbert Joseph Hannon, 15W. 243 Harrison, Elmhurst, Ill. 60126
 77 Marilyn Schultz Mallin, ONO36 Ambleside Dr. #8, Winfield, Ill. 60190
 78 Gretchen Leisen, 1018 Riverside Dr. SE., St. Cloud, Mn. 56301
 79 Randee Walshe, 6115 Grigsby Place, Stockton, California 95209
 80 Walter and Elizabeth DeBrouwer, 305 Norwegian Ave. Modesto, Ca. 95350
 81 Mrs. Howard N. Wood, 1466 Budd, Kankakee, Ill. 60901

George and Micheline Gaudette take great pleasure in announcing the birth of their first grandnephew, FREDERIC KONINGS, born on the 27th of October 1981 in Rocourt, Belg.

You will find in this issue of Belgian Laces a list of names found in the pedigree charts of our members, note that BT means Brabant, AN=Antwerpen, NR=Namur, EF=East Flanders, WF=West Flanders, LG=Liege, LB=Luxemburg, HT=Hainaut, LB=Limborg, GD of Lux.= Grand-Duchy of Luxemburg and IN14 means inquiry # 14 and it also means that this name comes from an inquiry and not from one of our members. A number before a capitalized name means that that name was found in the pedigree chart of member #..... You will also find an index to Belgian Laces #1-19.

FROM OUR MEMBERS:

Don't let the name Hruska fool you, Pearl Hruska, nee Delwiche, is a 100% Wisconsinite-Belgian, in her lines we find the names (Delwiche, Renier, Massart, Villers, Boucher, Bellin, Pirlot, Hoslet, etc..) of Belgian settlers of Wisconsin. Information about the place of origin in Belgium of the Delwiche family is been sought, please contact Pearl if you know anything about this fine family of pioneers. Pearl Hruska just spent a few weeks of vacation in Czechoslovakia where her husband's ancestors came from.

Pearl Hruska, R. # 1, Luxemburg, WI. 54217

The Hannonns, sometime spelled Hanon came from Belgium to Pennsylvania around 1880; and then moved from Pennsylvania to Kansas (Cherokee and Crawford Counties), and then to Illinois. Jamesalbert's grandfather, Charles August Hannon was born in 1876, his brother Francis was born in 1874 in Charleroi, HT. The other children were Mary Josephine, Emil, Delmar, and Julius; Emil and Delmar did not emigrate because they had to serve in the Belgian army. It is not sure if the father, Julius Hannon, who owned a lot of land in Belgium, emigrated to the U.S.

Jamesalbert Hannon, 15W. 243 Harrison, Elmhurst, Illinois 60126

Marylin Schulz Mallin's ancestors, the Desmet and Van Loo came from Oostende, WF; Louis Desmet and his wife Marie Helene Van Loo died in Duluth, MN (1950 and 1974). Her De Roeck and Oudenaarde ancestors came from Beveren-Waas and settled in Norway, Michigan.

Marilyn Schulz Mallin, ONO36 Ambleside Dr. #8 Winfield, Illinois, 60190

According to Gretchen Leisen, many people from the central Minnesota area stem from the province of Luxembourg, Belgium. One of her goals in joining The Belgian Researchers is to learn as much as possible about Belgian research so that in turn she could be of help to people of Belgian descent in her area who are starting their genealogical research. Gretchen's own Belgian ancestors go way back when Varnier Dumont is listed in Munchwies, Saarland, Germany as coming from the "Pays de Liège", he died in Munchwies 3 March 1700, his widow Johanna Jacqueline died there also on 12 Jan. 1719. They had a son named Franz/Francois Dumont born around 1685. Gretchen would like to know from which place of the "Pays de Liege" the Dumonts came from and why they emigrated to Germany. Her other Belgian ancestor is Simon Guthier/Gauthier and his wife Anna who presumably came from Namur Province. According to the records of Heppenhein, Germany, Simon Guthier was the commander of the fortress Starckenburg in April 1640, he remained in a supervisory

They count Princess Grace of Monaco among their descendants.

Gretchen Leisen, 1018 Riverside Dr. S.E., St. Cloud, Minnesota 56301

Oscar Dessaussois came to this country in 1880 at the age of 17, he signed what appears to be a declaration of intention to become a citizen in New Jersey, (Cumberland County) on 15 Sept. 1890, he married Olga Thiry in 1898 in Anderson, Indiana. In 1900 they are listed on the Alexandria, Indiana census as living with Leon Thiry (Olga's father) who was born in 1839 and who was a glassblower. A Firmin Dessaussois is listed on the Point Marion, Pennsylvania 1900 census as born in Belgium in 1867. There is a strong possibility that the Dessaussois-Thiry families came from Ransart, HT. Anyone having informations about these families, please contact : Randee Walshe, 6115 Grigsby Place, Stockton, California 95209

Jules Victor DeBrouwer was born in Belgium in 1848, his wife Mary Josephine Vandermallen in 1854; they emigrated to Weir, Cherokee Co., Kansas around 1880? Anyone having informations about the DeBrouwer/Vandermallen family please contact: Walter and Elizabeth DeBrouwer, 305 Norwegian Ave., Modesto California 95350, place of origin is needed.

"CENTENNIAL" a Laundry-Laces Genealogy has been offered for sale (\$16.50) by Charles A. Schaut, 904 Christiana St., Green Bay, Wisconsin 54303

We found thru "Gems of Genealogy" that Dorothy Lutomski, 421 South Michigan St., De Pere, WI. 54115 authored a book "READ FAMILY GENEALOGY, 1630-1980", which covers the Read/Reed, Case and Shank lines who settled in Massachusetts, Ohio, Indiana and Illinois. (\$10.00).

Josephine Eshelman is back to work full-time in a library. One of her friends went to France and made a special visit to Arlon Archives center where she found additional informations on Josephine's ancestors. She found that Anna Maria Kettel or Kottel died in 1793 at the age of 60 in Habergy, LX, she was the wife of Francis Huiting/Huitting. Also she found that Anne Barbara Maten or Mathen died in 1791 at the age of 39 in Guelf, LX, she was the wife of Theodor Grein. While talking with Mr. Petit, archivist, she also found that he had never received Josephine's request for informations on some of her lines.

Josephine Eshelman, 2870 Duane Dr., Meridian, Idaho 83642

From Margot Hykes: "...in July we had a delightful two and a half weeks' visit from one of my Belgian cousins. He's 18 years old and lives in Brussels, and his great-grandfather was a brother of my grandmother, Marguerite Renoz Hagemans. We like him immensely, and had a wonderful time taking him sightseeing around the greater Philadelphia area and down to Washington D.C..... Although he does speak some English, it was a great opportunity for me to brush up on my French! I was interested to learn that certain words I learned in my childhood that I thought were now obsolete, because I never hear anyone use them in French of late years, aren't obsolete at all; they are simply Belgian French. The two examples I remember are "septante" for "soixante-dix" and "nonante" for "quatre-vingt dix". Margot Hykes, 218 Grays Lane, Haverford, Pa. 19041
 The Belvas are back from Belgium where among many things they visited Florenville where one of their cousins is the town secretary (pretty handy when you need informations from the townhall!); Bertrix where another cousin introduced them to the Cugnon and Orge town secretaries, and finally they visited the Archives center in Arlon where the staff was most charming and helpful, but Mr. Hannick, one of the assistants explained that they receive many letters from the U.S. every week, that they

right away, beside one of their 2 photocopiers was out of order and the other one not yet installed. Mr. Petit, head-archivist of Arlon Archives Center, is a well known scholar whose work is highly regarded in Belgium and in France. The Belvas are most generous in sharing the informations that they have and that could be helpful to us; here is the address of the "Cercle de Genealogie et d'Heraldique des Ardennes, Hotel de Ville, 08000 Charleville-Mezieres, FRANCE". Most of the Ardennes region is located in Belgium, with a part in France and in the Grand-Duchy of Luxembourg.

The following is a query from the Belvas: "Among the names of Belgians established in Leopold, Indiana, we find the name BELVA, but no other informations. Would any member in that area know anything about these Belvas? Could it be that Jean Baptiste BELVA actually emigrated to the U.S. instead of Canada as previously thought?"

Charles Belva received the baptismal certificate of his ancestor, Laurent Joseph LENAIN, son of Felix Lenain and Jeanne Catherine MEURICE, he was baptized in Farciennes, HT, on October 10, 1776. The Godparents were Laurent Preumont and Jeanne Lorent. Charles and Claudine Belva, 2710 Beaurivage, Montreal H1L 5W4, Canada

Pierre and Leen Inghels are back from their European vacation where much of their time in Belgium was spent visiting relatives and friends; regardless of their busy schedule, Pierre was able to visit the "Office Genealogique et Heraldique de Belgique" located on the third floor of the "Museum Royal d'Art et d'Histoire, Parc du Cinquantenaire, Brussels, where he obtained among other things, the lists of names published in the "Parchemin" for the past 15 years. About 25,000 names are listed in these 15 indexes, upon request Pierre will check these indexes for anyone wishing him to do so. Pierre and Leen are now members of the "Office Genealogique et Heraldique de Belgique" and of "Vlaamse Vereniging voor Familiekunde". The Inghels translated a very difficult document written in old Flemish for Diane Komp. We are happy for Pierre and Leen that they are able to go to Europe so often, but we are equally happy to see them back, the help that they give to other members and their contributions to our newsletters is most appreciated by everyone.

Pierre and Leen Inghels, Fruitdale Rt.3, Box 3161, La Grande, Oregon, 97850

Barbara Conway VanDePete is still searching for her Van de Putte/Van de Pete ancestors. After the "Genealogical Helper" published her query she received some replies from descendants of various Van de Putte families whose ancestors had emigrated to the U.S. from Belgium. One Van de Putte family emigrated from Deerlijk, WF around 1880 and settled in Seattie; another Van de Putte family emigrated from Berchem, AN in 1921, another one from Ghent, one from Izegem, WF; one from Moerbeke-Waas, EF., one from Eeklo EF emigrated in 1910. The most exciting reply was a note saying that the records went back to Philippe Van de Putte born in Oudenaarde, EF, August 26, 1676, enclosing a family coat of arms from a publication dated 1524 in Ghent. In all including her own Van de Putte plus one family from Attre HT, 7 different, but perhaps related Van de Putte families emigrated to the U.S. from Belgium. Barbara found the christenings of Peter Van de Putte/Van de Pete's children in Shawnee, Kansas, Joseph was baptized by Father Lhellberg, his godparents were Joseph and Rosa Wertz; Joannes Petro was baptized by Rev. Albert Weiksmann, the godparents were Joannes and Suzie Van Herke. Lucia, also by Rev. Weiksmann, godparents Joseph and Lucia Van Herke. After spending 2 years searching for her husband's parent's marriage certificate in Missouri, Iowa, Kansas and Illinois, she found it in Colorado.

Barbara Conway VanDePete, Star Route 36, Box 64 A, Havre, Montana 59501

A "Belgian Festival" was sponsored by the Mishawaka-Penn Public Library and the BK Club. This event which took place on the week of October 12-17, offered films, puppet program, songs, games and crafts for children; there was also a pigeon exhibition, lacemaking demonstration, cooking demonstration, bowling, archery activities and card games. Henry Verslype, 546 W. 13th St., Mishawaka, Indiana. 46544

251 James Desreumaux received an article written by Edmond Derreumaux, Lys-lez-Lannoy, France about the origin of the name Desreumaux and various spellings thereof. The earliest mention of that name is found in the recorded transaction in 1341 of a rent deal made between Jehan Desreumaux, his wife Jehenne and the Marquette Abbey in the Wambrechies community, located near Lille, France. James Desreumaux's ancestors came from Warneton, HT, at one time known as Waasten, WF - Belgium, not too far from Wambrechies. The mentioned article was published in "Nord-Genealogie" in 1978. Very interesting.

James O. Desreumaux, 456 Eldon Drive, Apt. C-4, Corpus Christi, Texas 78412.

Cornets from everywhere! Charlotte Rogers with the help of Loretta Demant has found her Wisconsin Cornets, she received also a Cornet genealogy from Jean Michel Sablon. Charlotte is like always very busy, she and her friend are going into doing genealogical research on a paying basis for others wishing to research the Westmoreland county, Pennsylvania. We highly recommend them. Charlotte is attending lectures on Western Pennsylvania history at a local community college. Charlotte Rogers, 303 Reed St., Jeannette, Pa. 15644

Lois DeMeuse has received the marriage record of Jacques Joseph Demeuse and Jeanne Joseph Masset from Orbais, BT. where these ancestors were married on Dec. 19, 1935. The bride was born in Orbais on the 22 March 1813, daughter of Jean Joseph Masset and Marie Therese Delloye, the groom was the son of the late Antoine Demeuse and of Marie Josephe Delande (who at the time of the wedding was married to Jean Baptiste Lecocq) he was born on 24 April 1813 in Walhain St. Paul, Sart-lez-Walhain, BT. The witnesses were: Jean Jacques Lecocq; Charles Antoine Henin; Pierre Joseph Schouppe, Francois Joseph Dury all from Orbais.

Lois also received the birth records of Jean Baptist Demeuse (from Walhain St. Paul, BT) and of Jeanne Joseph Masset (from Orbais, BT). Good work, Lois! Lois DeMeuse, Box 50, Fish Creek, Wisconsin, 54212

We are pleased to report that David LEDOSQUET, son of Richard and Sarah Ledosquet, married Becky HANSEN on the twenty second of August at the Salt Lake Temple. Our best wishes to the lovely couple for happiness always!

Richard and Sarah LeDosquet, 10800 Sandhurst Drive Boise, Idaho 83704

Dorothy Lee is coming along very well with her research, she received some informations on her ancestor Anne Josephe Waterloo who was born in Sart Melin in 1817. She also sent a request for informations to Neerheylissem, BT, about her ancestors, the Geisenbergs and the Terwagne families but received a reply that the records kept by the town didn't predate 1891, she has now to write to the archives center in Brussels about these families. Jean Michel Sablon sent her also a Chauffoureaux genealogy, including coat of arms. Dorothy thinks that her Mathy ancestors came from Walhain, BT; Dorothy will be spending a few days in Wisconsin at the beginning of November. Dorothy (Mathy) Lee, 5W Lake Court, Antioch, California, 94509

We received a letter of inquiry from Jean A. Larson, editor of the California Genealogical Society's newsletter, requesting informations about the Walloon emigration to Sweden during the 16-1700's, she explained that her grandmother was a HEDIN and that that name had been changed earlier from HEDMAN, Hedman means Moor or Heathman in Swedism. The earliest Hedman was Olof Jonsson Hedman, born in 1704 in Ockelbo, Gastrikland, Sweden; he was a charcoal maker and later he moved to Jamtland province with a mining boom there. His wife was a daughter of Dragoon Johan Sallman. There is a strong possibility that Olof Hedman and his wife were of Walloon descent and that their ancestors came from Belgium.

Having read on an old flier (1975) of the Service de Centralisation des Etudes Genealogiques et Demographiques de Belgique that a Mr. Stephan Johanssen, honorary attache to the Swedish Embassy in Belgium, had presented that year a paper about "Louis de Geer, les Liegeois en Suede", and hoping that it might have some informations of interest to Jean Larson, we contacted the Swedish Embassy in Brussels to try to find the address of Mr. Johanssen but so far have not received a reply from the Embassy. Any suggestions anyone on where this research paper would be available or on where to find the address of Mr. Johanssen? Thank you.

Margareta DeLorouck Villa has found many names of Petros living in California and Denise Thibault found some too, all these names were sent to Jacques Detroy in Belgium who is very thankful for the help received. Jacques Detroy, 99 rue de Fétigny,

We feel that the following article written by Clement DeRooc will benefit most of our members and will interest them all. Another interesting article from Clement DeRooc, along with some passengers lists will be published in the next issue of "Belgian Laces".

SEARCHING MICROFILMED REGISTERS OF EAST FLANDERS, BELGIUM

For over five years I have been searching microfilmed Vital Statistics Registers of East Flanders for my Belgian ancestors with good results. These films, made by the Church of Jesus Christ of Latter Day Saints, which cover a high percentage of the registers available from the earliest parish registers to the year 1870 of the civil registers provided me with the opportunity to accomplish that which I could not do without lengthy visits to Belgium, a most expensive undertaking.

Recently, I have been mentally reviewing the course of events since the beginning of my search, what I did not know at the start, what I had to learn out of necessity, and the good feeling when I found an important link in my ancestry chain. From this review came the impulse to write about my experiences and observations on the use of these films in the hope that it will be of use to anyone who is in the position what I was in some years ago. I realize that my search has been limited to one Province in the Flemish area but believe that many of the problems encountered will apply to a varying degree in other Provinces of Belgium.

The sequence of my education did not necessarily follow in the order in which this paper is written; the order was arranged to present it in a more logical manner.

Preparation for Searching - A prerequisite for any effective search is to know the town or local area from which an ancestor came. Without this information, the search can be quite difficult. In my case, three locations were involved; the first being no problem because it was the birthplace of my father who had told me where he had been born. Determining the other two locations served to emphasize a basic principle in genealogy - do your homework in the United States before attempting to bridge the gap to a foreign country. After much searching, the origin of my maternal grandmother was determined by a "place of birth" entry on a death certificate of one of her sisters. The third location, that of my maternal grandfather, could not be found on any records of him or his relatives. Luckily, one of my cousins, after rummaging through a trunk left by his father, found a small scrap of paper which not only gave the information on my grandfather but also on his brothers and sisters. More than that, it gave his mother's birth date and place together with the names of her parents. A gold mine on a small scrap of paper.

Search Objectives - The geometrical progression of direct line ancestors dictates that objectives be established for any search. When you consider only eight generations, you are working with up to 255 direct line family group sheets together with all accompanying source material. Pursuing lateral families can raise this figure considerably. The primary objectives I set for myself were to find as many direct line ancestors as I could, male and female, and expand laterally only to their children's births, marriages, and deaths. In other words, fill in all the spaces on a typical family group sheet. Any other lateral expansion would be done only to the extent necessary to accomplish a specific goal or to resolve a puzzling relationship. After I achieve as much of this primary objective as I can, it will then be time to consider new objectives.

Microfilm Card Catalog (MCC) - After the registers of Belgium had been microfilmed, catalog cards were prepared to describe the contents of each film and the cards then microfilmed so that the information

could be made available to the Branch Libraries of the Church. The MCC films for Belgium are numbered 934,403 to 934,410 inclusive. These eight films, which eventually will be replaced by the new Computer Catalog, start with cards that pertain to Belgium in general, then on to cards that pertain to the Provinces. The catalog cards for East Flanders start on film number 934,409 and continue on film 934,410. It is essential that these films be consulted in detail if any effective search is to be conducted. As an example, the information on a catalog card for the town of East Eeklo shows the following:

PARISH REGISTERS (1680-1796)

- Film # Contents
 - 2907055 Index to Baptis, Marriages and Deaths 1680-1796; Bapts 1777-1789
 - 290,056 Bapts, Marriages 1680-1776; Deaths 1680-1795
- CIVIL REGISTERS (1795-1870)
- 783,946 Ten Year Indexes Births 1796-1817
 - 783,947 Births 1818-1854
 - 783,948 Births 1855-1870; Ten Year Indexes Marriages 1796-1870
 - 783,949 Marriages 1796-1834
 - 783,950 Marriages 1835-1870; Ten Year Indexes, Deaths 1796-1870
 - 783,951 Deaths 1796-1836
 - 783,952 Deaths 1837-1870

This example shows that nine films cover the vital statistics registers for East Eeklo from 1680 to 1870. Other towns may have more or fewer rolls of film, depending upon the size of the town and population activity over the years. Ghent, the capital of East Flanders, required 316 rolls of film for the civil registers from 1796 to 1870. I did not count the number of rolls which cover the parish registers prior to 1796, but it was considerable.

For register films that were cataloged after these MCC films were prepared, the LDS Main Library in Salt Lake City should be queried.

Selection of Films - After gaining an understanding of the MCC films, I copied the information from the cards of the towns of my interest so that their contents could be studied in detail at home. This allowed more time for determining which specific films to order instead of wasting valuable microfilm reader time at the library. Parish registers are the earliest, generally covering the period from some year in the seventeenth century to about 1796. Some of the registers from the larger and older towns begin in the sixteenth century. Most parish registers are fully indexed by baptisms, marriages and deaths, a factor that aids significantly in search.

Civil registers begin about 1796 and have been filmed to 1870. They are indexed at the end of each year and many are indexed by ten year periods. Some ten year indexes are consolidated and may be on the same or a different roll of film than the actual documents to which they relate. In the preceding East Eeklo example, note that the consolidated ten year indexes for marriages during 1796-1870 are at the end of a roll containing birth records, and the consolidated ten year indexes for deaths during that period are at the end of a roll containing marriage records. Consequently, selection of films must be made carefully to assure getting the records which will do you the most good. I found it best when selecting film to order both the indexes and the registers at the same time so that I could work one against the other. Also, in most cases, I found it better to order films for the six month rather than the two week period. The cost is not much greater and good use can be made of the longer time to conduct a more thorough search.

Language Problems - I am not a linguist and because of this had many misgivings prior to attempting the search. The extent of my foreign language knowledge was some basic German learned from one semester at school and service tours of duty in Germany. While this little knowledge helped with the Dutch language, particularly with dates and numbers, I soon discovered that I also was faced with French and Latin. All I can say is - do not despair. Although the registers are not completely formatted, a pattern is discernable in most of them. With the help of published dictionaries for the three languages, together with a mini-dictionary for each language made up of the most frequently used words, I was amazed at how much of the documents I could translate after a little experience. For those documents containing information which seemed important but I could not translate completely, I always managed to find someone who could do it for me. As for mini-dictionaries; dates, numbers and the most frequently used words sufficed for the initial translation attempt at the library, after which copied the document as best possible so that I could expand the translation at home with the use of a regular dictionary. A good start for your own dictionary is the multi-language mini-dictionary found in Belgian Laces #14 dated May 1980; however, I found that I could work better with separate mini-dictionaries for each language. Reading dates is not too difficult but I still have trouble distinguishing between some of the cardinal and ordinal numbers. Months are readily recognizable except for the Dutch Oogst and French Aout for August. In heavy use were the designations 7bre, 8bre, 9bre and 10bre which stand for September, October, November and December respectively. To me, the greatest problem was not the translation but being able to read the handwriting used over the years, particularly that found in the early Parish Registers.

French Republican Calendar - Anyone who works with registers during the period 1793 to 1805 will encounter the use of the French Republican Calendar and probable will be as completely baffled as I was. When first seen I knew it had to be a date, but had no idea of how I could convert it to our Gregorian Calendar. Encyclopedias, an old book on the French Revolution, and Belgian Laces (newsletter) #6 of May 1978 provided broad information about the Calendar, but each description raised further questions. For example, I found several charts which, by the use of simple arithmetic for the conversion of days, coupled with an equating of months and years, provided an approximate converted date; however, the charts did not take leap years into account which is necessary if accurate conversion is desired. The Gregorian years 1796 and 1804 were leap years (1800 was not a leap year), but the French Republican leap years were III (1794-1795), VII (1798-1799) and XI (1802-1803). Consequently, no simple chart can provide for true conversion of dates without complicated footnotes. The chart in the Belgian Laces Newsletter will serve to convert a date from the French Republican Calendar to the Gregorian Calendar and will be accurate to within two days. For greater accuracy, I compiled a separate chart for each French Republican year from its inception date of 22 September 1792 to its demise on 31 December 1805.

Reading of Parish Registers - Aside from the usual and expected problems in reading Parish Registers, there are some details about the registers of this Province that should be specifically mentioned. The Catholic Parish Registers, which were written in Latin, generally are quite stylized and can be read after a little practice. The main problem is the handwriting. Fortunately, most of these registers are indexed in a more readable handwriting which allows for a comparison

of names and helps in the reading of the registers. This cross-play of names between the indexes and the registers is invaluable and one of the principal reasons why I suggest having both films on hand when working. Children were registered by the dates of their baptisms which may or may not be the dates of their births. Occasionally, a birth date is also given; however, I noticed that most baptisms occurred the same or succeeding day of the birth so if a birth date is not given, you most likely will not be far off.

When first working with a specific roll of film containing parish registers, take the time to review the order of the entries because frequently they are not in strict chronological order nor separated into neat sections of baptisms, marriages and deaths. The order of entries on the film for East Eeklo, 1680-1796 are: (R-Baptisms; M-Marriages; D-Deaths) D1777-1779; B 1680-1712; B 1734-1740; M1681-1711; M 1734-1740; D 1682-1710; D 1734-1740; 1st Communion 1777-1782; B 1714-1734; M 1714-1734; D 1731-1734; D 1714-1731; B 1741-1776; M 1741-1776; D 1741-1776; B 1780-1795; D 1780-1795; M 1780-1795. Finding a specific entry without a listing to work from, even with index information, would be frustrating and time consuming. The 30 minutes to one hour necessary to review a film can save you many hours of searching later.

The indexes of the Catholic Parish Registers apparently were compiled by each town and vary in content and arrangement. For example, the index to the Parish Registers of Baptisms in East Eeklo is in alphabetical order by the family name and gives the first name of the child, name of the father, full maiden name of the mother, date of the baptism and the page number of the register. Such an index simplifies the grouping of families. Baptism indexes of parish registers in some other towns do not give the parents names, which means that the actual baptism entries for appropriate time periods must be read. Indexes to marriages prepared by each town generally contain the same information but some towns compiled one alphabetical index for all names while other towns compiled two indexes, one for the grooms and one for the brides. Indexes to deaths were prepared alphabetically with wives and widows generally listed by their maiden names. Occasionally they are listed twice, once by their maiden name and once by their married name. When the death register contains the name of the spouse, that fact usually is included in the index. On the occasions when a name, but no date of death is given, check for other spellings of the name. One especially helpful factor that can be obtained from the indexes is variations in the spelling of names. Remember, the priests who made the entries in the parish registers wrote the names as they heard them, a fact which was reflected in the spelling. Consider and check all possible variations of spelling. As one example, the baptisms of the children of Petrus LACAYSE and Anna VANOVERVELT, the names were spelled: LACAGIE, LACAISE, LACAIYSE, LACASE and LACAYSE.

Reading of Civil Registers - Civil registers started about 1796 and have been filmed up to and including 1870. From about 1796 to about 1814 the registers were written in French and thereafter in Dutch. In all cases, genealogical information contained in these registers is outstanding. Aside from one short period in the very early 1800s, when the French tried to institute printed forms with spaces for fill-in of information, the registers were written free style. Birth entries, in addition to the parents names, usually give the parents ages or dates of birth and where they were born. Marriage entries not only give complete name, age or date of birth, and birthplace of the bride and groom, but include the full names of both parents of each as well as their age or date of birth and where they were born. If any of the parents were deceased, that fact is also given, many times with the date and place of death. In some instances, these

Having problems with your research ? please let us know about them - we love to hear about your successes too of course.

The courteous and interesting
 reply that we received from
 the New Albany-Floyd County
 public library, Indiana, informs
 us that Washington Charles DePauw
 was born in Salem, Indiana on 4
 January 1822. It was his grand-
 father Charles (born in Gent)
 who came to this country with
 Lafayette and fought under his
 command during the American
 Revolution. Charles married in
 Virginia then moved to Kentucky
 where General John De Pauw, father
 of Washington Charles, was born.

Found errors and omissions in the published indexes of this Belgian Laces ? please let us know about them.

Pierre Inghels would like you to know that you can request 2 good free maps of Belgium: Tourist Map of Belgium or/and Avis Road Map of Belgium, from Belgian National Tourist Office, 745, Fifth Ave., New York, N.Y. 10022. From the same office you can also request the 42 pages "Belgium Historic Cities" (free of charge).

MAY WE BE THE VERY FIRST TO WISH YOU ALL A MERRY CHRISTMAS AND HEALTH, HAPPINESS AND PROSPERITY FOR THE COMING NEW YEAR ? THESE ARE OUR FONDEST WISHES. WE DON'T WANT TO FORGET THANKGIVING, INDEED IT REMINDS US OF ALL THE GOOD THINGS WE SHOULD BE THANKFUL FOR, THIS COUNTRY, THE ONE(S) OUR ANCESTORS CAME FROM. MANY THANKS FOR YOUR SUPPORT AND CONTRIBUTIONS TO THIS ISSUE AND PAST ISSUES OF "BELGIAN LACES", IF WE ARE SUCCESSFUL IT'S BECAUSE OF YOU AND THE HELP THAT YOU GIVE TO EACH OTHER.

THIS ISSUE OF "BELGIAN LACES" WAS UNUSUAL IN THE NUMBER OF PAGES THAT IT HAS, OUR NEXT ISSUE WILL BE BACK TO NORMAL. WE HAVE GREAT ARTICLES COMING UP ! IF YOU HAVE CORRESPONDENTS IN BELGI: PLEASE DON'T FORGET TO SEND THEM YOUR BEST WISHES FOR THE NEW YEAR.

Micheline
