FROM OUR MEMBERS

The following is a query from Vivian Krueger:

Jost Heinrich THEIS came to America @ 1735. It has been assumed that he was German, but I am considering the possibility of Belgium origin. He married ANNA SENSABAUGH in Montgomery Town, N.Y.

and had son HEINRICH TICE in 1762, Ulster County, N.Y. who married HULDA VANGORDER. Hulda descends from JESSE DE FOREST and JOHANNE DE LAMONTAIGNE Vivian Tice Krueger, 1832 Sauk Trail, Sauk Village, Ill. 60411

Please note that the name THEIS/TICE can also be spelled THIJS.

There is controversy over the origin of the name HANNON, some say that spelled that way with the double N indicates an Irish origin, while the HANON spelling indicates a Belgian origin. Some even say that the HANNONS emigrated from Ireland to Belgium and then to the U.S. Jamesalbert Hannon thinks that perhaps the Catholic Church in Weir or Scammon, Kansas where his grandfather Hannon made his First Holy Communion might have informations about the place of birth of his grandfather or at least the place where he was baptized in Belgium.

Jamesalbert Joseph Hannon, 15W 243 Harrison, Elmhurst, Illinois, 60126

Mary Barry got her husband's Herbiniat line back to 1706., when Pierre HERBINIANT married Marie FAGOT in Grand-Leez, NR. There is a birth record for Marie Fagot at Grand-Leez 22 Sept. 1685, but not for Pierre, perhaps he is the Pierre HERBIGNEA born in Meux, NR in 1676. Marie FAGOT's parents

where Jean FAGOT and Marie DAVIN. Again there is a birth record for a Marie DAVIN born 10 Aug 1633 in Grand-Leez, daughter of Norbert and Jeanne BARBIER. If this is "the" Marie DAVIN, she wasn't married in Grand-Leez.

On the DREST/DRESDE line, Mary found that Jean Baptiste DREST was born 23 March 1748 at Longchamps, NR. His wife was Catherine DERY and one of their children's birth records indicated that she was from Assesse. On the Assesse records one Catherine DERY and two Marie Catherine DERY were baptized at Assesse during the logical time period. Mary notes, and this is important to all of you with ancestors from Longchamps, that NOT ALL THE LONGCHAMPS RECORDS WERE KEPT AT LONGCHAMPS SOME WERE FOUND IN EGHEZEE AND MANY IN MEHAIGNE.

Mary Barry would like to know more about censuses in Belgium, which might help to identify members of families during the 1700s and 1600s, or about any other records which might do the same.

Mary Barry, 323 W. Harvard, Anchorage, Alaska 99501

Gretchen Leisen is becoming more and more Belgian! She writes: "This past summer my genealogy took a giant leap forward when I was able to document the ancestry of one of my German lines which belonged to the lesser nobility. The records show that my ancestress is a daughter of Jean of Burgundy, Count of Rethel, Etampes & Nevers. Jean's grandparents were Philippe of Burgundy and his wife Marguerite of Flanders. Marguerite was the only child born to Louis de Maele, Count of Flanders and his wife Marguerite of Brabant."

Is there anyone who could advise Gretchen as to which references would be the most reliable in the genealogy of the Counts of Flanders, Brabant, Namur, Luxembourg and Holland?

Elizabeth DeBrouwer has written a book on the ancestry and descendants of Sidney Tanner, one of John Tanner's sons. John was the father of all the Tanners connected with the LDS church. Sidney went West with John and other Tanner family members and then went on to San Bernardino. There are many interesting facts connected with the Tanner family, if you want to read about it, Elizabeth's book will be ready by late November, \$ 15.00 + \$ 2.00 for postage and handling. Elizabeth has located 5,073 descendants of Sidney Tanner and has listed them all in her 780 page book.

Allan Tascher has families ties with Napoleon III and of course with Josephine Tascher de la Pagerie, wife of Napoleon I. He found also that two of his relatives went with Napoleon I to Russia and died there. So much for Allan's French connections, on his Belgian side, Allan is a descendant of Ernest Louis LEMENAGER, born in Perwez, BT on Aug. 19, 1853.

While doing her research, Jeanne Quin came across two 19c. French written articles about New-York's beginnings. At the time when these two articles were written it was widely and erroneously believed Jesse de Forest was the founder of New York, (Jesse died in Guyana, but his children did emigrate to the U.S.); the author of these articles repeats that mistaken notion in his article "The Grandson of a Montoise*", founder of New York, but he also writes that Melchior de Forest (Jesse's grandfather) married a Miss du Posset from Mons, Belgium, and that his grandson, Jesse moved to Sedan, France where in 1601 he married a Miss du Cloux, later the family emigrated to the Netherlands (Leyden 1615).

* Montoise=a female inhabitant of Mons, Belgium. The second article entitled "New York Origins - Claes Roosevelt" came about because of an obituary found in a local newspaper about an American residing in Brussels and well known for her kindness and generosity, the obituary said that Mrs. Frederic-L. de Forest, nee Julia Desha, died in Brussels on 13 April 1898, she was 66 years old - burial at the Laeken cemetery. The author, in an effort to learn more about the de Forest family, visited the American Consul in Belgium, George-Washington Roosevelt (cousin of Teddy Roosevelt) who claimed that it was the Roosevelt family who was among the founders of New-York! The article goes on about Claes Marteneze van Roosevelt, first Roosevelt who emigrated from the Netherlands to the U.S.

All the members of the family were invited, and were identified as the West Indian Group and the East Indian Group, separating the 2 sons of Jonathan Ferguson and Helena Elizabeth Martijn.

Mary Knoblach found that Oisemont is located in France and not Belgium like the naturalization papers of her grandaunt Celina Liegeois Delcourt reported. As requested, Oisemont townhall sent a photocopy of the marriage Delcourt-Liegeois which shows that the bride was indeed born in Bleid, LX. Virton (Bleid is part of Virton) was also kind enough to sent 2 photocopies of Marguerite Celine Liegeois (born 5 April 1867) and Maria Liegeois (Mary's grandmother born 22 Oct 1870) birth records which shows that they were daughters of Nicolas Joseph Liegeois and Marie Celestine Gillet.

He married Marie Juneau on 16 Feb. 1863. They had 7 sons and

This past September, Charles and Joan Siegert joined the Peninsula Belgian-American Club of Wisconsin and went to Belgium - other members of The Belgian Researchers that went along were Austin Allard, John and Mary Ann Defnet, and Dorothy Lutowski, we hope that they all enjoyed their trip very much.

We also received the following communication from B. Hutchins, 1022 16th St. A-3, Ogden, UT 84404. It was found in the book "The History of North Idaho" by Longeteis. "Alexis Picart was born in Belgium on April 21, 1852, and there remained with his parents on the farm, attending school until he was twenty, when he enlisted in the regular army and served as corporal one year and as sergeant for two years, being personally acquainted in this time

with every town of importance in Belgium. Following his military career, Mr. Picart returned to the native place, and on March 9, 1879, he married Miss Adle Thomson, a native of Belgium and a dressmaker. In 1884, they took passage on the steamer, Paris, and went via Bordeaux, France, to New Orleans, being eighteen days on the ocean. Thence they made their way to San Antonio, Texas and later settled in Seguin, where they remained until 1888..." "In the spring of 1896 Mr. Picart came to his present place?"

5 The following remarks about genealogical research are provided to call to the attention of would-be researchers, that genealogical research starts with informations found in one's home and within one's extended family; in other words, talk to, interview your family members even friends of the family and record, tape record if necessary, what they have to say about your ancestors. Other family and home sources would be bibles, diaries, journals, letters, photographs, newspaper clippings, land documents, naturalization papers, military papers, certificates, school report cards, pension records, family traditions. Of course, a simple recording system suited to one's need should be established - there are various family group sheets and pedigree charts available (I am partial to anything that fits into a 3 ring binder) and when recording informations do not forget to note the SOURCE, always use MAIDEN NAMES for women, if not available leave the space blank, record dates in this manner: DAY MONTH YEAR, DO NOT use a number for the month, the month CAN be abbreviated, the years CANNOT be abbreviated. The next step would be to search the records of the area where your ancestors lived, that could be birth, baptismal, marriage, death, divorce records, census records, district court records, obituaries, newspapers, emigration records, cemetery records, list of voters, tax rolls, printed genealogies, LDS records and many more. Remember that HISTORY

and GENEALOGY go hand in hand, visit local libraries, become a member of a genealogical-historical society for the area where you are concentrating your research. Find everything there is to find about your ancestors here in the U.S. and Canada, before you cross back the Atlantic to Belgium.

6 Well, voting season is upon us again, we hope that you are taking your right to vote seriously. We learn by Xavier Martin's account "The Belgians of Northeast Wisconsin" published in the Wisconsin Historical Collections, about the Belgians' struggles to settle in that state, most often their plight ignored by their more affluent neighbors - So it's always with a great amount of pride that we read how at voting time, the Belgians organized themselves and showed-up in force at the polling place located 10 miles from their settlements and elected everyone on their "ticket"; from that time on (April 1858, Green Bay Town election) they were recognized as an important factor in the area elections. In Belgium, voting is compulsory for anyone over 21. It was only in 1893 that universal male suffrage was enacted in that country, in 1921 provision was made for women to vote but the law wasn't implemented until 1948. More about voting rights.... Pierre Guerin, in his "Les Elections des Cures de Fleron durant l'Ancien Regime", reports the most unusual privilege enjoyed by the inhabitants of Fleron Parish (Liege) who under the Old Regime (pre-France's annexation of Belgium) and since immemorial time, had the right to elect their pastor. Every head of household, be male or female, had the right to vote, and that right was taken very seriously and defended religiously against any attempts to take it away. Most elections were peaceful with the pastor in charge able to usher in a relative to take his place upon his demise providing that the parishioners of course chose to elect him. But on occasions, we find the candidates, their families and friends campaigning vigorously, bitterly, at times involved in bribes, misrepresentations, coercion and even violence in order to see their candidates elected.

It seems however that the parishioners were very wise and always elected very good pastors.

Many thanks for your support and contributions to this issue of Belgian Laces. We wish you a very good Thanksgiving and a very Happy Holiday Season.

Micheline

The Soundex/Miracode made easy to understand, thanks to Clement DeGoo, 238NE Brunson Ct. Port-St. Lucie, Fl. 33452

SOUNDINDEX/MIRACODE

SOUNDINDEX is a surname coding system based on the way a surname sounds rather than the way it is spelled. Surnames which sound the same but are spelled differently, such as PETERS and PIETERS, have the same SOUNDINDEX code and are grouped together. An alphabetical listing of the names would separate them. The coding system is the same for both SOUNDINDEX and MIRACODE cards; the principle difference between the cards being the manner in which the actual census location is identified.

The SOUNDINDEX code for any surname consists of a letter and three numbers, such as S652. The letter is always the first letter of the surname. The numbers are assigned according to the following guide:

THE NUMBER REPRESENTS THE LETTERS

1	R, P, F, V
2	C, S, K, G, J, Q, X, Z
3	D, T
4	L
5	M, N
6	R

Disregard the letters A, E, I, O, U, W, Y, and H

BASIC STEPS - Print the surname you are coding; slash out the letters A, E, I, O, U, W, Y and H after the first letter of the surname. Print the first letter of the surname and convert the remaining letters to numbers. For example, the surname HANSON becomes H525. No matter how long or short a surname is, its SOUNDINDEX code is always the first letter of the surname and three numbers. For long surnames, once you have coded the first three unslashed letters following the initial letter, disregard any additional ones. For example: GENTRUBUGH is coded G531 and the remaining letters R and G are disregarded. For short names, add zeros to the end of the code. The surname BERO has only one letter to code so two zeros are added to the end to obtain B600. The surname SHEA is coded S000.

NAMES WITH PREFIXES - If your surname has a prefix, such as VAN, VON, DE, DI, or LE, code it both with and without the prefix because it might be listed under either code. The surname DE SMET, for example, should be coded as D253 and S530. (Mc and Mac are not considered prefixes)

NAMES WITH DOUBLE LETTERS - If your surname has any double letters, they should be created as one letter. Thus, in the surname FULLERTON, the second L should be slashed out and the code is F463.

NAMES WITH LETTERS SIDE BY SIDE THAT HAVE THE SAME NUMBER ON THE SOUNDINDEX CODING GUIDE - Your surname may have different letters side by side which convert to the same number on the coding guide, for example, PF in PFIISTER (1 is the number for both P and F); GKS in JACKSON (2 is the number for C, K, and S). These letters should be treated as one letter. Thus, in the name PFIISTER, F should be slashed out, yielding P236; in the name JACKSON, K and S should be slashed out yielding J750.

With your ancestor's name correctly coded, you are ready to use the microfilmed SOUNDINDEX or MIRACODE card index which is organized by State, thereafter by code number, and thereafter alphabetically by first name or initial. The arrangement of similar coded cards by alphabetical first name or initial order is important. Remember, all cards with the same SOUNDINDEX code are grouped together regardless of the variations in the spelling of the surname. The names BEANS, BEENS, BEYNS, BHIENS, BONNSE, BUNSPA, all code to B520, and the cards are grouped under that code. The order of the cards within that group is arranged alphabetically by the first name or initial. Thus, the card with the name BIENS, Bernardus will precede the card with the name BEENS, Petrus. If you do not know the first name or initial, or wish to look at all cards with the same surname, you have no choice but to read each card that might fit the situation you are facing.

A typical SOUNDINDEX card looks like this:

C510		NEW JERSEY			
CAMP, David		Vol.	57 E. D. 128		
(HEAD OF FAMILY)		SHEET	21 LINE 17		
W	June 1871	28	Belgium		
(COLOR) (MO) (YR) (AGE) (BIRTHPLACE)			MA		
Paadadic			(CITY)		
(COUNTY)			(CIVIL DIVISION)		
Paterson	Lyon		103		
(CITY)	(STREET)		(HOUSE NUMBER)		
(OTHER MEMBERS OF FAMILY)					
NAME	RELATION	BIRTH	AGE	BIRTH	CITIZEN-
CAMP, Alice	W	MO	YR	26	Eng
CAMP, James	S	Sep 1873	26	Eng	
		Jun 1899	1	N. J.	

A typical MIRACODE card for the same family would look like this:

PASSAIC	PATERSON	057	0128	0426
C510	CAMP	DAVID	H	W 28 BELGIUM N. J.
			ALICE	H 28 ENG
			JAMES	S 1 N. J.

A SOUNDINDEX card is easy to understand because each item is labeled. A MIRACODE card has no label but when compared to the information contained on a SOUNDINDEX card, it is not difficult to understand. The most important difference between the two cards is the manner in which they refer to the original census. SOUNDINDEX cards give Volume (57), Enumeration District (128), Sheet Number (21) and Line Number (17). MIRACODE cards give the reference information in three groups of digits in the upper right corner of the card - Volume (057), Enumeration District (0128) and Family Visitation Number (0426).

The following censuses have been surname coded, and card index lists prepared:
1880 - SOUNDINDEX cards were prepared only for those census entries that relate to households including a child age 10 or under. The cards give the names, ages and birthplaces of a members of such households and there is a separate cross-reference card for each child age 10 or under whose surname is different from that of the head of the household in which he is listed.
1900 - SOUNDINDEX card index lists were prepared for all States:

- Household cards for the head of the household which lists all members of the household including those who were not members of the immediate family.
- Individual cards for persons living alone.
- Persons living with families who were not immediate members of the family; members of an immediate family but who had different surnames; persons in hotels, boarding and rooming houses, and institutions; persons on military posts and naval ships and at naval stations; and persons enumerated on U. S. flag vessels in all U. S. ports on the first day of the census only.
- Following 21 States were surname coded and SOUNDINDEX(S)/MIRACODE(M) cards prepared: ALABAMA (S), cities of Birmingham, Mobile and Montgomery grouped together and listed separately from the State (S); ARKANSAS (M); CALIFORNIA (M); FLORIDA (M); GEORGIA (S);

cities of Atlanta, Augusta, Macon and Savannah grouped together and listed separately from the State(S); ILLINOIS(M); KANSAS(M); KENTUCKY(M); LOUISIANA(S), cities of New Orleans and Shreveport are grouped together and listed separately from the State(M); MICHIGAN(M); MISSISSIPPI(S); MISSOURI(M); NORTH CAROLINA(M); OHIO(M); OKLAHOMA(M); PENNSYLVANIA(M), Philadelphia County is listed separately from the State(M); SOUTH CAROLINA(S); TENNESSEE(S), cities of Chattanooga, Knoxville, Memphis and Nashville are grouped together and listed separately from the State(S); TEXAS(S); VIRGINIA(M); and WEST VIRGINIA(M).

Surname coding is not perfect. It will not cover all variations of spelling. If you have not found what you are seeking and are sure the family did not move out of the State, consider alternatives. The name CAMP might be spelled KAMP; CLEIMAN might be KLEIMAN; AERTS might be HAERS; a key consonant might be dropped or transposed. Failing all this, the last resort is to search the actual census page by page.

GEOGRAPHICALLY SPEAKING
 LEMBEKE, EF, from Dictionnaire Geographique de
 la Flandre Orientale by Philippe van der Maelen,
 1831.

Community located in the county of and at 3/5
 mile south of Kaprijke (current spelling), in
 the district of and 3/4 miles NNW of Ghent.
 This "gemeente" is made of the following sections:
 (old spelling) Averschoot, Beekstraet, Caprykstraet,
 Crommeveldstraet, Pendstraet, Heihoek, Kelsbroeck,
 Meulehoek, Oosthoek, Ostveld, Vromboutstraet,
 Weststraet, Willemhoek, Wykterhand and Koek-
 bakstraet. A tributary of Burggraven-Stroom
 runs through. The soil is argileous and sandy,
 it produces wheat, rye, oats, buckwheat, flax,
 potatoes, clover, vegetables, but very little
 oleaginous plants.
 Apples, pears, plums, cherries are found in the
 orchards - the pasture land is excellent.
 There are 900 horses, 29 colts, 99 cattle-
 heads, 258 calves, 485 pigs, 315 sheep and
 6 goats.

19 There are 3,419 inhabitants, 449 houses, 54
 farms, 1 church, 1 townhall, 1 jailhouse,
 2 schools and 1 castle. One medical doctor
 resides in Lembeke. One brewery and three
 windmills can also be found.

The German-speaking towns of Belgium are:
 Amel, Bullingen, Burg-Reuland, Butgenbach,
 Eupen, Lontzen, Raeren and Sankt-Vith, all are
 located in the Liege Province.

Are all the microfilms of Belgian Records as listed on MCC-Belgium, readily available
 to patrons in the main Genealogical Library in Salt Lake ?
 We received the following answer from Salt Lake Genealogical Library: ".....the
 microfilms in our collection for Belgium are "little used" microfilms and are not
 all kept in the Genealogical Library. These do have to be ordered from the vault.
 It is advised, therefore, that at least two to three weeks before you plan to be here
 ... you sent a letter requesting from the vault the microfilms that you desire to r
 earch.
