Remarks at the end of the census: "The only disease which has prevailed to any unusual extent in my district is Typhoid Fever in Tippecanoe Township. There is a very large mill pond about the center of the towship in which a large quantity of decaying timber. There is no Lime, Marl, Shells used there as fertilizers - water generally hard - Timber: Hard maple, Beech, Poplar, Walnut, several varieties of oak, and various other kinds of Timber."
