Remarks: *The soil is generally sandy and clayey luam and Timber. Pine, Red Oak, Ash, Maple, Birch. The foundation is Limestone. Excellent grains & a bounds. There is a mineral spring in this town the the water of which contain a minute portion of iron and lime combined with carb and acid and also the sulphate of soda and magnesia which are under them not only alterative and laxiture but gently tonic. The town is noted For having been the residenace of the Norridgewock Indians who were destroyed Aug 23, 1724.*
