COMMERCIAL STREET

LEBANON, MISSOURI

Lebanon, Missouri, a town of 4,000 friendly people, situated in the "heart of the Ozarks" as the county seat of Laclede county, offers an ideal home-site for all.

Located on the main line of the Frisco railroad, United States highway 66, and Missouri highways 5 and 64. Lebanon has paved streets, municipally owned light and water works, sewer system, accredited high school and fine public schools, and churches of all denominations.

Great advantages are offered in the fact that its three banks and building and loan association weathered the depression without criticism and have over a million and a half in deposits. Other features in Lebanon are a clothing factory, ice, ice cream, butter factories, two bottling plants, flour and feed mills, stave mill, wholesale grocery, and many varied business houses.

Having an altitude of 1,400 feet, Lebanon enjoys pleasant summers, mild winters, making the climate healthful the year round, beautiful scenery, excellent hunting and fishing. For an ideal home-site, live in Lebanon and enjoy the goodwill of its many merchants.
