## INTRODUCTION

Southern Directory Company, publisher of the Shelby city directory, takes pleasure in presenting the 1937-38 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this directory and we are confident that the result is an authentic and useful city directory.

The publishers have worked in cooperation with a special committee of the Shelby Lions Club to the end of building this directory along lines which, in their opinion, would best serve the public.

Confidence in the growth of Shelby, in its wealth, industry and population, as well as in the advancement of its municipal and social activities, will be created as sections of this directory is consulted, for, truly, the directory is a mirror reflecting Shelby to the world.

Your attention is invited to those names appearing in **DISPLAY BLACK TYPE** throughout the directory as they are the responsible, enterprising, advertising business men who take pride in sustaining the city directory and who have made this publication possible.

### POPULATION

The estimated population of Shelby is 15,064, based on the number of individuals found by actual canvass at each residence. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

### FIVE MAJOR DEPARTMENTS

The several essential departments are arranged in the following order.

**THE MISCELLANEOUS DIRECTORY**, containing valuable information concerning Local, State and National Governments, Churches, Schools, Colleges, Clubs, etc., included in pages 7 to 10.

**THE NUMERICAL TELEPHONE DIRECTORY**, listing telephone subscribers by telephone numbers can be found beginning with page 11.

**THE ALPHABETICAL LIST OF NAMES** of residents, business firms and corporations is included starting on page 101.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 269 to 280. This department lists the various manufacturing,

## INTRODUCTION (cont'd)

mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community.

THE STREET AND AVENUE GUIDE begins with page 281. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders, with the number of occupants, and business concerns are placed opposite the numbers.

### MUNICIPAL PUBLICITY

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information over the country, the publishers have placed copies of this issue of the directory in Directory Libraries, which are maintained in all the chief cities of the country. Here they are readily available for free public reference and serve as perpetual advertisements of Shelby, for business men the country over realize that the city directory represents the community as it really is.

GIVING NAMES OF HOUSEHOLDERS, THE NUMBER OF OCCUPANTS IN EACH HOUSE, AND DENOTING BUSINESS PLACES

VOL. II

1937-1938

VOL. II

NOTE—Streets are arranged in alphabetical order. All house numbers are arranged numerically following the description and location of each street, giving the name of householder. The number in parenthesis after name denotes number of occupants in each house.

Dash (—) before name denotes that number is wanting.

(\*)—Purpose of star (\*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of same.
