BYRON, N. Y.

HOW TO USE DIAL TELEPHONES

BYRON CALLS

1. Obtain the correct number from the latest issue of the telephone directory. For example, 235.
 2. Remove the receiver and listen for the dial tone—a steady humming sound.
 3. With the receiver off the hook, place your finger in the hole over the figure "2" and bring the dial around in a clockwise direction until your finger strikes the stop.
 4. Raise your finger and without touching the dial allow it to return to its original position.
 5. In the same manner dial the figures "3" and "5".
- Listen for the RINGING SIGNAL, an intermittent burring sound indicating the called telephone is being rung.
- If the called telephone is busy, you will hear instead the BUSY SIGNAL, a rapid buzz-buzz-quicker and louder than the ringing signal.

If the party you are calling does not answer after several attempts, it is possible that the number has been changed or disconnected. This may be verified by dialing "Operator".

For ASSISTANCE on local calls dial "Operator".

ALL OTHER CALLS

On all OUT OF TOWN calls, INFORMATION calls, REPAIR SERVICE or EMERGENCY (fire or police) calls, dial "Operator" and make request to operator who answers you.

On all EMERGENCY calls, BE SURE TO GIVE EXACT LOCATION OF THE EMERGENCY.

TO PARTY LINE USERS

Always listen before starting to dial to be sure that the line is not in use.

To call another party on your line, dial the listed number. After dialing the second digit, a "busy signal" will be heard. Continue by dialing the third (last) digit and then hang up your receiver. Your telephone bell, as well as that of the called party, will ring. When the called party answers, your bell will stop ringing. Then remove your receiver and talk to your party. To stop your bell ringing in case the called party does not answer, lift your receiver for several seconds and then replace it.
