"WHERE TO BUY IT"

HOW TO USE THE CLASSIFIED TELEPHONE DIRECTORY

A LIST of the business telephone subscribers in this vicinity will be found on the following pages. Below is a brief explanation telling how the Classified Telephone Directory may be used advantageously in locating or calling these subscribers.

To find the telephone number of a business concern you have in mind—

First—Turn to the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

Next—Locate the desired concern and telephone number in its proper sequence under the heading.

To find where to buy the article or service you wish—

First—Turn to the heading descriptive of the article or service you wish. Under this heading may also be found sub-headings indicating particular kinds of that article or service and dealers in a position to serve you.

Next—Select the dealer with whom you wish to do business. Listings are arranged in alphabetical sequence.

Trade names of registered articles are indexed as main headings. The trade-mark with descriptive matter and list of dealers is placed below that heading. A cross reference to the main trade-mark heading appears in alphabetical order among the listings under the business or commodity heading relating to the trade-marked commodity or service.

The display advertisements provide more complete buying information.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully.

Use street and number in return address on your envelopes, and also on letter heads.

Advertisers should use their street address and room number in all advertisements.

Address mail to street and number, and include room number when addressing mail to office buildings.

Insure valuable parcels.

Wrap parcel post carefully with heavy paper and tie securely.

Avoid the use of the word "City" as part of the address. Such practice may result in delay.

Avoid abbreviations of state names, Pa., Ia., and La. frequently look very much alike when written. It is hard to distinguish between Me., Mo., Md., and Ind. It is almost impossible to tell the difference between Cal. and Col. as abbreviations for California and Colorado. It is safer to write state name in full.

You will often gain a Day's Time in delivery by depositing mail as soon as it is ready.

Suggestions relative to improving these pages of postal information are invited.
