

Of Course Advertising Costs Money

One of the stock alibis of persons who do not advertise or register their business strongly in the Directory is that advertising is an expense.

Of course it is. So is window trimming, lighting, heating, telephone service, postage, rent, cost accounting, price tags and almost everything else that helps to sell merchandise or service.

Yet no business man attempts to get along without these necessities. And most of them are advertising in one form or another.

Attractive windows are effective advertising only to those who pass the merchant's place of business. An inviting interior, good lighting arrangement and price tags reach only those who come through the door.

But no merchant who wants to maintain even his present volume of business, to say nothing of increasing it, can hope to continue for very long, in the face of advertised competition, without some aggressive program to attract NEW customers—and when getting them also serving them with a directory handy for use.

Of course it costs money to advertise. But it may easily cost more money to lose that volume of business which is necessary to operate at a profit.

An intelligently planned and executed advertising campaign in the City Directory is within the reach of almost every merchant, professional man and institution. The City Directory is used millions of times annually, and costs less than one thousandth of a cent per user—the least expensive publicity ever devised.

MANNING'S

Batavia Numerical Street Directory

1934

Copyright 1934, by H. A. Manning Co.

Containing a full list of streets and roads, with the dwellings and stores located thereon. Residences and places of business are designated by their street numbers, numerically arranged. Where the houses are not numbered the householders are arranged in the order that they come on the street. Figures in parentheses following names, indicate number of room in building. (c) following names designates owner of building.
