INTRODUCTION¹

On the 142 rolls of this microcopy are reproduced the population schedules of the Fourth Census (1820) of the United States. The schedules for each State or Territory are bound in one or more volumes. Those for the States of Alabama and New Jersey and the Territories of Arkansas and Missouri were not transferred to the National Archives from the Bureau of the Census and appear to have been lost many years ago. The volumes, each of which has been microcopied on a separate roll, are arranged alphabetically by name of State, Territory, and the District of Columbia, and thereunder by volume number. They are distributed among the numbered rolls of this microcopy as follows:

<u>State or Territory</u>	<u>Roll Nos.</u>
Connecticut	1-3
Delaware	4
District	5
Georgia	6-10
Illinois	11-12
Indiana	13-15
Kentucky	16-29
Louisiana	30-32
Maine	33-39
Maryland	40-46
Massachusetts	47-55
Michigan	56
Mississippi	57-58
New Hampshire	59-61
New York	62-79
North Carolina	80-85
Ohio	86-95
Pennsylvania	96-114
Rhode Island	115-117
South Carolina	118-121
Tennessee	122-125
Vermont	126-128
Virginia	129-142

¹This introduction is repeated without change on each roll of the microcopy. On each roll there is also reproduced an introductory note containing a table of contents and information pertinent only to the schedules reproduced on that roll.

The information in the schedules is presented under the names of heads of families. A statistical distribution is given for members of each family by race (including a distinction between free and slave Negroes), sex, and age group. Alongside the name of each head of a family certain statistical information is recorded in the vertical columns running from left to right across a schedule. The first 11 columns record the age-group distribution of white males (under 10, 10-15, 16-18, 16-25, 26-44, and 45 and over) and of white females (under 10, 10-15, 16-25, 26-44, and 45 and over). The 12th column gives the number of foreigners not naturalized; the 13th, 14th, and 15th columns show occupational classification (agriculture, commerce, and manufactures). The 16th to 19th, 20th to 23d, 24th to 27th, and 28th to 31st columns furnish, respectively, the age-group distribution of male slaves, female slaves, free male Negroes and free female Negroes (under 14, 14-25, 26-44, and 45 and over). The 32d column, which is the last, is headed "All other persons except Indians not taxed." The only names, therefore, that appear in the schedules are of heads of families or of persons who were not enumerated within a family or household unit. Because printed forms were not generally used, all or part of the schedules of some localities carry less than the prescribed 32 columns. This apparently occurred in instances where no enumeration was made of persons belonging to groups ordinarily listed under these missing columns, or where the number of persons belonging to these groups was so small that they were listed numerically or by name at the end of the schedules of the locality in which they were enumerated.

Column headings generally do not appear on the schedules themselves but are found at frequent intervals in a volume, usually at the beginning or end of the schedules of a subdivision.

Recapitulations of totals appear at intervals throughout the schedules. These recapitulations were printed in summary form in the Census for 1820, Published by Authority of an Act of Congress, Under the Direction of the Secretary of State (Washington, 1821). This publication, a copy of which is in the National Archives, includes (1) totals of columnar statistical data carried in the schedules for the respective enumeration districts, (2) totals for each county, town, township, city, borough, and parish, and for some wards, (3) totals of columnar statistical data for the entire United States, including Territories, and (4) texts of documents relating to the taking of this census.

Occasionally affidavits attesting to the posting of the returns have been inscribed on or attached to the schedules, and these affidavits have been photographed as they occur in the volumes. Blank pages and occasional manufacturing schedules, inadvertently bound in the volumes, have not been photographed.

The original arrangement of a few of the schedules, which was disturbed when they were bound into volumes, has been largely restored on the microcopy.

Although more than one set of numbers often appears on the schedules, the system of numbering, whether stamped or written, followed in preparing a table of contents for any particular volume is generally that which (1) runs consecutively from beginning to end of the volume, and (2) appears to be consistent with the numbering in other volumes for the same State. Occasionally a schedule is unnumbered.

In the case of entries relating to a single family and appearing on two facing pages both pages have usually been photographed on the same frame of the microcopy. This applies likewise to entries running vertically across two facing pages. All of the schedules are so reproduced on the microfilm that they occupy a normal reading position although many of them were bound otherwise in the volumes.

These schedules are part of a body of records in the National Archives designated as Record Group 29, Records of the Bureau of the Census.

SCHEDULES FOR THE STATE OF NEW YORK

The 18 volumes of schedules for the 50 New York counties of 1820 are reproduced on rolls 62-79 of this microfilm publication. A recapitulation for the counties comprising the Northern District of New York is on pages 2-29 of volume 1, reproduced on Roll 62. Apparently there is no similar recapitulation for the Southern District of New York. The schedules for the various counties are distributed among the rolls as follows:

NOTES ON ROLL 72

Reproduced on this roll is the eleventh New York volume, which has the following backstrip title: "Fourth / Census / 1820 / Population / 11 / N. Y. / Genesee / Hamilton / Jefferson." The volume contains schedules for the counties named.

The table of contents below shows the page where the schedules begin for each county and other subdivision. Column totals are at the end of the schedules for Hamilton and Jefferson Counties; in addition column totals are at the end of the schedules for each subdivision of each county. The notations concerning Ellisburg on pages 366 and 396 are not contemporary ones and apparently may be disregarded.

References in the table of contents are to numbers penciled on successive pages of the schedules. Where a schedule begins on a page that does not have a number, an "A" number (1A, for example) has been used for identification on that page and in the contents.
