

# Norwood Historical Society

## Norwood Street Word Puzzle

There are 75 street names in this puzzle. How many can you find? The names will be in a straight line, vertically, horizontally or diagonally. Also, they may go in any direction, e.g. to the left *or* right (*backwards*), down *or* up, etc. Also, names will overlap or may be inside others. Most are current names, but some are old names of current streets or streets that no longer exist. Can you solve without looking at the names at the bottom? For a bonus, the unused letters spell out a special message about the NORWOOD HISTORICAL SOCIETY's mission. Also, two names are used twice. What are they? On a map, can you locate the streets with the old names?

- |            |           |         |          |         |          |          |
|------------|-----------|---------|----------|---------|----------|----------|
| Adams      | Allison   | Alvina  | Arbor    | Arklow  | Ash      | Atlantic |
| Avilla     | Baker     | Beech   | Bell     | Bennett | Besuden  | Burwood  |
| Buxton     | Cameron   | Carter  | Carthage | Center  | Cleneay  | Cliff    |
| Cross      | Crown     | Cypress | Dacey    | Dale    | Drex     | Dudley   |
| East       | Edmondson | Elm     | Foraker  | Forest  | Franklin | Globe    |
| Grove      | Harris    | Hazel   | Hires    | Hunter  | Ida      | Judge    |
| Lawn       | Linden    | Lloyd   | Madison  | Maple   | Marion   | Marsh    |
| Montgomery | Mound     | Norwood | Oak      | Park    | Pine     | Regent   |
