

## ABOUT THE GROUP....

The Payne County Genealogical Society was established in 1979 to promote GENEALOGY in Oklahoma and Payne County area. Genealogy is the recording of the pedigree of a person or family over a number of generations. We study our ancestry, DNA and our family history to preserve our heritage for future generations. Membership is open to everyone and includes genealogists with a wide range of experience and expertise.

The Payne County Genealogical Society (PCGS) meets on the third Thursday of each month, at 6:30 pm, in the Stillwater Public Library in Stillwater, Oklahoma. If you are interested in working on your family tree at any level, please come and join us at one of our monthly meetings. We are proud of the development of Genealogy in Payne County, so we would like to notify you by e-mail or telephone to announce our monthly meetings. Meeting times and dates: ([www.facebook.com/payneokgenealogy](http://www.facebook.com/payneokgenealogy))

Members enjoy Facebook articles on genealogy and announcements on meetings, special presentations and new genealogy books in the Stillwater Genealogy Room at the Stillwater Public Library.

PCGS provides books and materials for the Genealogy Room at the Stillwater Public Library. The library has over 1,600 genealogical resources including books, magazines, CD-ROMS, and microfilm – many of them donated by the society. Members are encouraged to recommend new materials to be added to the research room. The society has also published a number of resources of interest to research of area families
