

## Who We Are

My name is Sara Jane Ruggles and my husband, Justin, and I have been providing families with historical archiving services since 2012. We understand that every family has a unique story and we share a passion for helping families tell theirs. I have a bachelor's degree in History from Boise State University and I am currently earning my Masters degree in Public History from the University of Nebraska, Kearney. Justin is earning his bachelor's degree in Software Engineering from Colorado Technical University and currently works as a Software Integration Engineer at Seattle Children's Hospital. We moved to the Seattle area in 2015 from our home in Coeur d'Alene, ID with our daughter, Emmeline. With our combined skills, we are able to offer clients a wide range of services. Give us a call, we would love to meet you!

We would love to  
hear from you!

# Viva Voce Historical Services

Connecting Generations

## How It Works

First, we schedule a free consultation. This will typically last between 30-60 minutes. This meeting will enable us to sit down together to discuss your project.

Every project is unique in content and price. The hourly rate for our services is \$45.00.

We understand every project is unique. Some are large and others are minimal. We will work with you every step of the way to ensure the final product meets your specific needs.

How can we help you preserve your family history?

- **Create a Family Tree**  
This visual tool can be very helpful for showing your loved ones and future generations where you come from.
- **Organize/Archive Photos, Videos and Heirlooms**  
Let us help you preserve your most treasured family possessions so they can be protected for generations.
- **Record Your Oral History**  
No one knows your stories like you. By recording your stories, you can speak to your loved ones for years to come.
- **Create Custom Photo Albums**  
Digitally organize photos into a family photo album or video slideshow.
