

South Orange County California Genealogical Society Books

Across the library from the docent desk is our book collection. On the shelf are our books arranged by state and country. A large file cabinet holds a collection of smaller books and manuscripts. Our book list includes over 2000 books that are either on the shelf, file cabinet, docent desk, credenza, on FTM CDs or online in Google Books or Ancestry. A copy of the book list is on the docent desk and is available online at: [SOCCGS Library](#).
