INTRODUCTION

Members of the Genealogical Society of Okaloosa County have been copying the Santa Rosa County Marriage records and printing them in their Journal since the Society's organization in 1974. This volume compiles these records from 1869 to 1906. The editor has proofread all of them from the original to help eliminate errors. However, because of the erratic spelling and handwriting, there may be errors in interpretation. Therefore, if a name is similar to the one you seek, you would be wise to obtain a copy of the original from the Santa Rosa County Clerk Archives or view it on LDS microfilm.

Occasionally, the name is given in one way on the license and in another on the recording of the marriage. In this volume we have shown these with the second name in parentheses, i.e., THOMAS (THOMPSON). If the name was difficult to decipher and could not be distinguished between two names, the second possibility is shown with a question mark, i.e., THOMAS (THOMPSON?). A question mark is also added if the name is especially difficult to decode.

The marriages are sometimes out of chronological order, usually because the license was obtained much earlier and the marriage is recorded on the page of the license. Often the license date is later than the marriage date, leading one to believe couples sometimes were married and obtained the license later to register the marriage.

If a marriage has the notation, "License only," no more information is on the page. The couple may have married, and the minister failed to appear at the courthouse to record the marriage. Some licenses were obtained and then canceled. These are noted accordingly.

In the later years the notation "col" to denote "colored" appears on many marriages. These are noted with a (c) at the end of the line. These couples are probably black, but they could be American Indian, since Indians often called themselves "colored" rather than "Indian" to avoid being sent to a reservation.

Additional information to be found on the original includes the following: the date of the license, the name and title of the person performing the ceremony, the county clerk's name and the recording date.

To obtain a Photocopy of a record write to Mary M. Johnson, Clerk of Courts, Santa Rosa County, P.O. Box 472, Milton, FL 32570-0472. Attn: Archives. At the time of this printing the cost of the copy is one dollar along with a self-addressed stamped legal-size envelope.

Located in the Panhandle of Florida, Santa Rosa County was created in 1842 from Escambia County. However, the courthouse burned in 1869, so records before August 1869 are nonexistent. In 1915 Okaloosa County was created from Santa Rosa and Walton Counties. Thus, records in this book also include persons from the western half of what is now Okaloosa County.
