Subject: Soldiers deaths
Here's another couple of snippets which you may already know.
Two of the soldiers from No 10 Company who are mentioned in the Sawdust Fusiliers as having died while in Dochfour are Chauncy James Wiggins, age 27, a Private, who died on 10th September 1944.
His cause of death is "Fracture of skull caused by falling rock - accidental".
He was married to Viola Marie Dunn. The registration document is a bit unclear so I can't make out where he is from. However, on my next trip to Edinburgh I will get out the original book which should make it more clear.

Re Chauncy James Wiggins -
I found no marriage for him in Scotland.
Neither did I find any birth of Viola Marie Dunn.
Therefore it would appear that Viola was a Canadian lass and that they were married in Canada.

September 1944 a third member was killed when struck by a falling boulder while felling trees near Drumnadrochet.
