

Early Records from Junction City Cemetery, Junction City, KY

This transcription contains early records of burials in Junction City Cemetery. The originals are on 25 pages with hand-written notes. The records are obviously incomplete, as whole years are missing, and there is little consistency within the records.

On some entries including "infant" and variants, it is often unclear whether "Chas G" is the infant's name or the parent's name. The original records included lot and section numbers, but they seem to follow no logical order, and are inconsistently recorded; therefore I have not recorded those.

"Pg" refers to the page on which the record is found. "B" indicates burial pages; "P" indicates burial PERMIT pages.
