

General Hodsdon – Dear Sir

I understand by Mr Morrill a recruiting officer who was at your office a few days ago that no information of re enlistments in the 8th, 9th & 12th Regiments had been recd at your office consequently I thought some explanation might be proper in relation to bounties which appears on our returns to be paid to soldiers in those regiments. The facts are as follows – Oramandell M Hubbard, of the 8th – Phineas Hanson of the 9th – and George W Applebee of the 12th Regts and also Edward V Dorre of John F Robinson of the 1st Cav – have written to us that they have re enlisted and requested us to take them on our towns quota and pay them the bounty that we were paying to volunteers – This we have promised to do and have made arrangements to pay them their bounties when they make their visits home. Making five bounties of \$300 each that has not yet been paid, but which we expect to pay, under these circumstances we thought it would be right and proper to include them in the returns that your Honor requested us to make.

Very Respectfully Submitted
