 Shipping Information

Shipping Address

Steven Swinford
1107 South Third Avenue
Bozeman, Montana 59715
United States of America

EDIT

Shipping Method

 **Standard** - Usually 7-10 business days,
\$9.95 for first kit; \$4.95 each additional kit.

 **Expedited** - Usually 2-3 business days,
\$24.95 for first kit; \$12.95 each additional kit.

Once kit(s) arrive

You have the option to link specific kits (by using serial number of kit) to individuals in your tree.

If you opt not to link a kit to an individual, you will only receive the ethnicity assessment.

Why type of test is this?

Microarray-based DNA test (autosomal)
-22 pairs (not the X or Y)

Looks at over 700,000 locations

Both women and men can take this test

Saliva-based

Other information

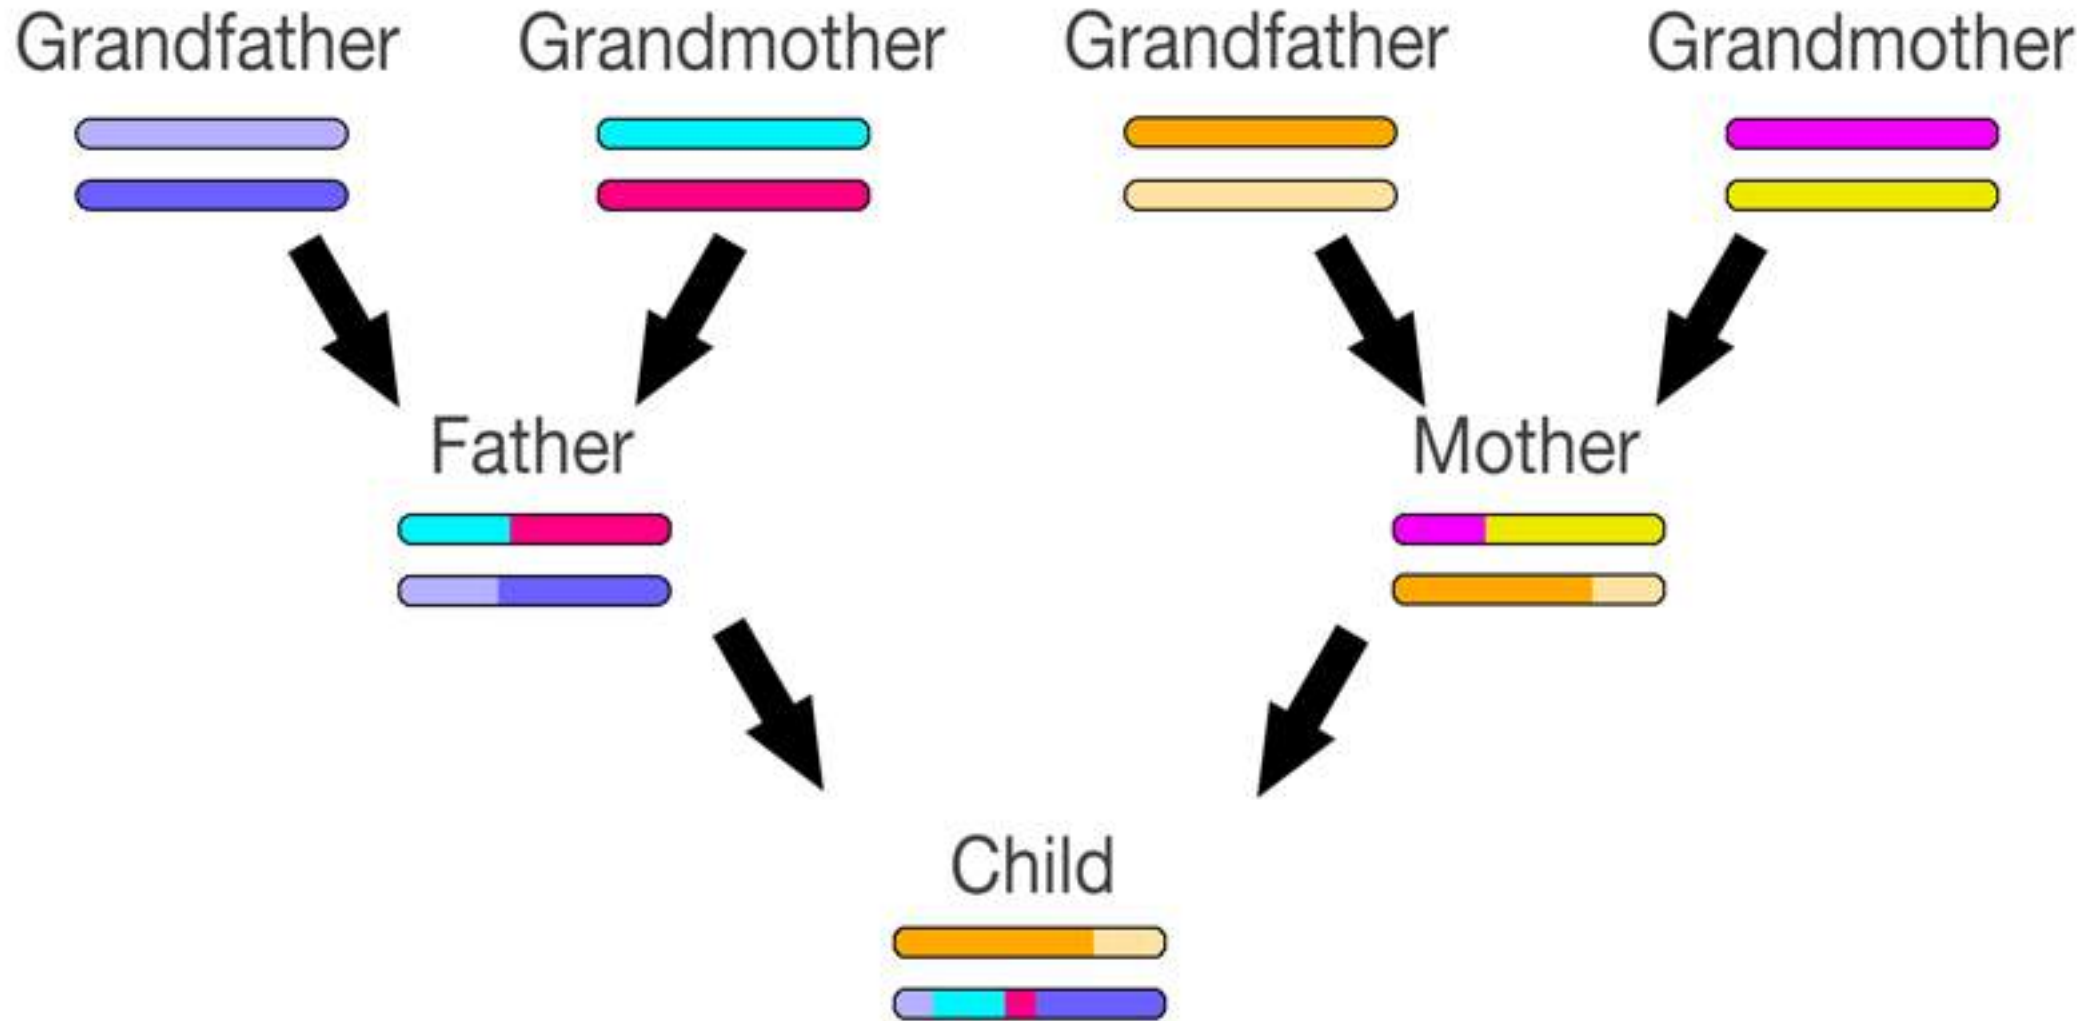

Takes about 6-8 weeks to receive results

See results in ancestry.com account

You can download results (raw data)

- more on this later

My eye color results

Predicted Eye Color for Kit A657223 (F2)

/opt/gedmatch/databases/kits/V0A657223.bin Resource id #5
1323980

Read rules from top to bottom. In some cases, a rule cancels out results from rules above it.

CT at: rs17762363 - Increased melanin production. Adds yellow, amber, or brown. Some darkening. Contributes to brown.

CC at: rs1847134 - Deep Brown

CC at: rs3794604 - Blocks some melanin. Often gives light colored eyes.

GG at: rs7174027 - Blocks some melanin. Often gives light colored eyes.

CC at: rs4778241 - Low Melanin. Basis for Gray, Blue, Green, or Yellow Eyes if no other pigmentation is present.

CC at: rs9782955 - Blocks some melanin. Often gives light colored eyes.

TT at: rs1129038 - Penetrance modifier. Blue.

GG at: rs12906280 - Gray ring around outer edge

TT at: rs1667394 - Starburst (Collarette)

CC at: rs12203592 - No pigmented Collarette.

AG at: rs11634406 - Flecks (Nevi).

11 rules were used to make this prediction. There are 61 active rules in our evaluation model, utilizing 41 SNPs
