INTRODUCTION

This is an **index** to “Burials in the John Hancock Cemetery, Florham Park, New Jersey: a compilation of death records, certificates and obituaries” which is in the collection of the North Jersey History and Genealogy Center at the Morristown & Morris Township Library, Morristown, New Jersey. The Cemetery is located on the west side of Ridgedale Avenue at the intersection of Greenwood Avenue.

DESCRIPTION OF COMPILATION:

The compilation is divided into three sections. The first item is a copy of, “John Hancock Cemetery,” a typescript also in the collection of the North Jersey History and Genealogy Center. It lists names and other information gleaned from the gravestone inscriptions.

An attempt has been made to find and copy death records or certificates and obituaries for the individuals buried in the cemetery. There have been some limitations. Statewide registration of deaths in New Jersey did not begin until May 1848 and, at first, registration was spotty. There were about 30 burials before that date.

The second section is a chart showing information abstracted from Deaths 1848-1878 on file at the New Jersey Archives in Trenton. During this time period, deaths were recorded in ledgers, one line for each record.

Beginning in June 1878, death certificates were issued. The final section includes certificates and obituaries, for some individuals both, for others either a certificate or an obituary.

There was no specific search for marriages. However, those that were noticed during the search for obituaries are included.

The quality of the copies varies greatly, but they reflect the condition of the originals, both certificates and obituaries copied from filmed newspapers.

Certain members of the Felch, Hancock, Hedges, Lanning and Tunis families buried in the cemetery are featured in the *Biographical and Genealogical History of Morris County, New Jersey* (New York: Lewis Publishing Company, 1899). This is noted on copies concerning these individuals. Other members of the families also are mentioned in these articles. Find A Grave (<http://www.findagrave.com/>) should be seen for gravestone photos, inscriptions, and information submitted by interested contributors.
